

Curriculum Driver

Explore the Present

Investigate the Past

Create the Future

We aim for each, individual pupil to leave Hindon School as a confident, responsible, resilient, creative and reflective life-long learner with embedded learning skills that will enable every child to investigate and learn from the past, explore and care for the present and imagine and create the future.

We aim to support our pupils to be the very best they can be; guided by a secure understanding of fundamental British values and nurtured by a secure Christian ethos.
