

## Add 2-Digit Numbers 1 – Practical Activities

### Advice and ideas

#### Maths VF

Provide children with number cards. Ensure the numbers selected will not involve crossing 10 and are 2-digit numbers.

Ask the children to pick two cards, work out the total and record using a number sentence.

#### Maths RPS

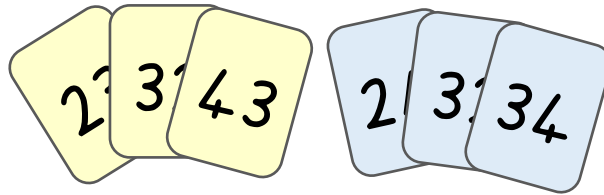

Provide the children with plates to represent a part-whole model and number cards. Ensure the number cards feature 2-digit numbers only.

Ask the children find different ways of making a total of 69 using two number cards.

### Maths VF

123

**Make a number sentence.**

42

31

$$42 + 31 = 73$$

## Add 2-Digit Numbers 1 – Practical Activities

### Advice and ideas

#### Outdoor

Label buckets with 2-digit numbers. Ensure that the numbers chosen will not involve crossing 10. Give the children two balls. When they have thrown the balls into the buckets, ask them to calculate their score. Who got the highest score?

#### Role Play

Set up a shop. Ask children to select two items to buy and to work out the total cost. Ensure prices of items will not involve crossing 10. Children use tens and ones to pay. How many tens will you need? How many ones?

### Outdoor

123

## Work out your score.

### Role Play

123

## Work out the total.

## Add 2-Digit Numbers 1 – Practical Activities

### Advice and ideas

#### Sand

Paint numbers onto pebbles and hide sand. Choose numbers that will not involve crossing 10. Hide the pebbles in the sand. Ask the children to find two pebbles, add the two numbers together and to write a number sentence in the sand.

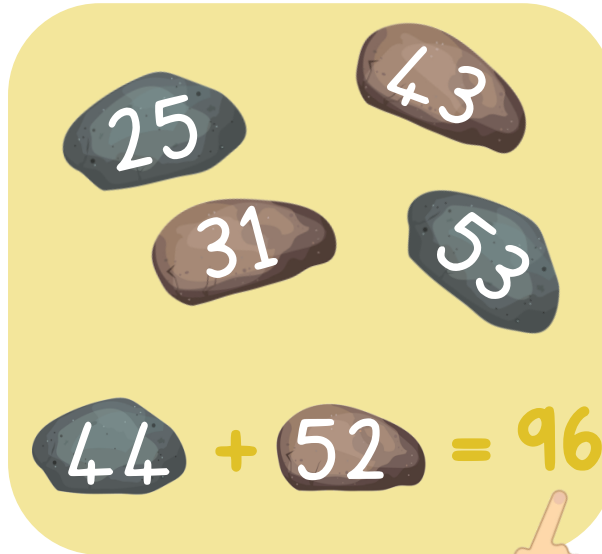

#### Water

Write numbers on balls. Choose numbers that will not involve crossing 10. Ask the children to catch two balls in a net and to work out their total score. Who has the highest score?
